MATERIALS NOTE

Only one hook is needed for each size. Which hook size you use is determined by which size Cardi you wish to make. Use the smallest hook to make size S, the middle-size hook to make size M/L, and the largest hook to make size 1X/2X.

GAUGE:

For SIZE S: 4 V-sts = 3 in. (7.5 cm) + 8 rows = 4 in. (10 cm) over V-st pattern with G-6 (4.25 mm) hook;

For SIZE M/L: 5 V-sts + 7 rows = 4 in. (10 cm) over V-st pattern with H-8 (5 mm) hook;

For SIZE 1X/2X: 6 V-sts = 5 1/4 in. (13.5 cm) + 6 1/2 rows = 4 in. (10 cm) over V-st pattern with I-9 (5.5 mm) hook.

BE SURE TO CHECK YOUR GAUGE. When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. If it takes you fewer stitches and rows to make a 4 in. [10 cm] square, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

STITCH EXPLANATION:

V-st (V-stitch) (Dc, ch 1, dc) in indicated st or sp.

V-st-INC (V-stitch increase) (Dc, ch 1, dc, ch 1, dc) in indicated st or sp.

NOTES:

1. Cardi is worked in two pieces. Each piece forms half of the collar and half of the body.
2. Each half is worked back and forth in rows in a semi-circle shape, from the armholes outwards.
3. The pieces are overlapped at the back. The Cardi is meant to be worn with a variable amount of overlap at the front, allowing the Cardi to fit a range of sizes.
4. Use the hook that allows you to achieve the gauge specified for the size you want to make.
5. Increases are made in two different ways; 1) a V-st-INC is worked into a ch-1 sp, 2) a V-st is worked into the sp between V-sts. When the pattern says to work a V-st in the sp between V-sts, work into the sp between the V-st just worked and the next V-st.
6. Stitch markers are used to separate the body sts and the collar sts. All body shaping increases are worked in the center section, and all collar increases are worked in the collar section. Use different color markers for the body markers and collar marker. Move markers up as work progresses.
