GAUGE:

18 sts + 16 rows= 4" [10 cm] in pattern

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

STITCH EXPLANATION:

Thread embroidery needle with embroidery thread and make a small knot at the end. With the right side of the towel facing up, bring the needle up from underneath the towel to the top; make a small loop and hold it in place against fabric with thumb. Bring needle back down to underside, in same space where it came up. *Bring needle up inside loop just made, toward the top, and make a new loop which will lay outside the stitch made, by bringing needle back down in space where it came up. Repeat from * for required number of chains. End by bringing needle up inside loop and then bringing it down outside the loop to anchor final stitch.

TOWEL

Version 1 – Cotton Woven Tea Towel

Unfold towel and lay flat – do not press open. Measure and cut a length of embroidery floss 3 times the width of the towel. Thread embroidery needle with 3 strands of embroidery floss (most embroidery floss has 6 strands, so you will need to split off what you need) and, working along center width fold line, make 69 Embroidered Chain Stitches, evenly spaced. Fasten off embroidery floss and secure ends.

Change to Lion Cotton and knitting needles. With RS facing, pick up and knit 1 stitch in each embroidered chain stitch – 69 sts.
