GAUGE:

16 sts + 22 rows = about 4 in. (10 cm) in St st (k on RS, p on WS).

When you match the gauge in a pattern, your project will be the size specified in the pattern and the materials specified in the pattern will be sufficient. The needle or hook size called for in the pattern is based on what the designer used, but it is not unusual for gauge to vary from

person to person. If it takes you fewer stitches and rows to make your swatch, try using a smaller size hook or needles; if more stitches and rows, try a larger size hook or needles.

Making a Gauge Swatch

STITCH EXPLANATION:

M1 (make 1) An increase worked by lifting the horizontal strand lying between needles and placing it onto the left needle. Knit this new stitch through the back loop – 1 st increased.

ssk (slip, slip, knit) Slip next 2 sts as if to knit, one at a time, to right needle; insert left needle into fronts of these 2 sts and knit them tog – 1 st decreased.

Note: After working a few rows, you may decide that your band would look better if you had picked up more or fewer sts than the amount indicated for your size. Since a well-balanced band adds a beautiful finishing touch to your Pullover, we strongly recommend that if you've any doubts, simply pull out the sts and adjust the number that you pick up. The pattern instruction reflects the number that the designer picked up – but everyone's knitting is a bit different.

Sew rem raglan seam. Sew side, underarm and Sleeve seams.

Weave in ends.
