NOTES

1. 25 separate Squares are worked first. Stitches are picked up along the side edges of the Squares to join them and to make the side panels.
2. Squares are joined only along side edges; the top and bottom edges are not joined –this creates slits between the Squares.
3. For this design, the first side panel will be wider than the second side panel.
4. A circular needle is used to accommodate the large number of sts on the side panels. Work back and forth on the circular needle just as if working on straight needles.
